YSS PHILOSOPHY

"We will Produce the most Valued Product for Our Families"

By using International Standard Quality Systems to control and manage our production for the best quality in every piece of our products.

VISION

We are the leader in development and manufacturing of world class suspension, continuous innovating quality products with the whole of technology, performance, and value for our customers.

MISSION

We will produce high performance and more value suspension through advanced technology and equipment with well-trained full skill and active teams. We also have service centers to support worldwide customers. Furthermore, we have quality system and social responsibility to ensure that YSS is the world class suspension.

PASSION OF WORK

1

2020

World's no.1 of High performance Shock Absorbers for Motorcycle and Scooter

2019 Launch Up-Side Down CCG Fork

2018 Launch Closed Cartridge and Full Racing Shock with Thermo Needle

2017 Launch Conventional CCG Fork and Open Cartridge Gas Fork

2016 Develop and launch new product 456 series, fork spring, car spring, steering damper and mounting kit

2015 2nd factory with 5,000 SQ.M working area. Produce full ranges of spring for global market

2010 New factory equipped with full of new technologies, machines, and systems to produce high performance shock absorbers for global market

2008 Y.S.S. scooter shock absorbers received ABE by TÜV Rheinland under authorization of KBA, Germany

2007 was established in Netherlands as EUROPEAN R&D CENTER

2006 We are certified quality system ISO/TS 16949 by TÜV Rheinland, Germany

2004 Launch gas shock absorber technology

2001 We certified quality system QS 9000 and ISO 9001 by TÜV Rheinland, Germany

1983 Y.S.S. FIRST FACTORY WAS ESTABLISHED IN THAILAND.

INTELLIGENT INFORMATION TECHNOLOGY

We develop and utilize IT by connecting between ERP, CRM, Database system and also In-House Programming. Therefore, our MIS systems connect data in all internal departments as well as for external Suppliers, Distributors, Dealers, Service Centers and End Users enabling us to have a real time database which ensures communication efficiency.

RESEARCH

We really want to understand our users. To achieve this, we employ research under customer centric principle to understand the real needs of users. Then, we start research and development process to develop technologies that meet market trends and demands.

DEVELOPMENT

Our expert team endlessly makes improvement from extensive experience in developing shock absorber for racing teams worldwide. The achievements of Y.S.S. users in many tournaments all over Europe, USA and Asia have proved that we are truly passionate in developing world's No.1 suspension.

DESIGN

We highly emphasize on design process to get Y.S.S. product's signature based on market insights. In this process we employ, engineering cad software which is Solidworks and many cutting edge tools to ensure top performance in our products.

BRANDING

Y.S.S. is well recognized for being a leader in high performance suspension. With 30 years of experience, we offer widest range of highly efficient, affordable, value for many products and also after sales service to our customers. We also work closely with our partners worldwide to develop market to meet each area's needs.

SERVICE CENTER

WE VALUE OUR CUSTOMERS
AND SERVE YOU WITH
PROFESSIONAL
AND COURTEOUS SERVICE.

SERVICE CENTER AUTHORIZED

YSS is a shock absorber manufacturer for cars and motorcycles more than 35 years. YSS continues using Advanced Technology and equipment at all stages in the production to develop and improve high quality of products continuously. YSS has dealers in more than 40 countries around the world to offer the best service by professionals and well-trained Service Center team.

WE SERVE YOU THE BEST SERVICE AND MIND

YSS Service Center provides the most professional facility for all kinds of vehicle : Motorcycles, Scooters, Cars, ATV / QUAD, UTV / SIDE BY SIDE and Special Purpose vehicles by service team around the world. All service centers use the same standard to give our customers impression and satisfaction in service and confidence in YSS products.

PRODUCT CODE

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20
X	X	X	X	X	-	X	X	X	X	X	X	X	-	X	X	-	X	X	X

Digit I : Product group

- F = Front twin shock
- V = Front mono shock
- R = Rear twin shock
- M = Rear mono shock
- T = Rear twin scooter shock
- O = Rear mono scooter shock
- I = Inner Tube
- K = Front fork

Digit 2 : Product type

- G, C = Top external reservoir piggy back gas shock
(G = TOP LINE, C = ECO LINE)
- U, K = Bottom external reservoir piggy back gas shock
(U = TOP LINE, K = ECO LINE)
- X, O = External reservoir piggy back on hose gas shock
(X = TOP LINE, O = ECO LINE)
- A = Divided piston gas shock
- Z, E = Emulsion gas shock (Z = TOP LINE, E = ECO LINE)
- T = Triple piston (ATPD)
- B = Gas - DTG
- D = Double tube hydraulic shock
- S = Single tube hydraulic shock

Digit 3-5 : Piston and shaft size

168	=	Piston 16 mm + shaft 8 mm.
188	=	Piston 18 mm + shaft 8 mm.
220	=	Piston 22 mm + shaft 10 mm.
222	=	Piston 22 mm + shaft 12 mm.
302	=	Piston 30 mm + shaft 12 mm.
304	=	Piston 30 mm + shaft 14 mm.
306	=	Piston 30 mm + shaft 16 mm.
308	=	Piston 30 mm + shaft 8 mm.
362	=	Piston 36 mm + shaft 12 mm.
364	=	Piston 36 mm + shaft 14 mm.
366	=	Piston 36 mm + shaft 16 mm.
456	=	Piston 45 mm + shaft 16 mm.
506	=	Piston 50 mm + shaft 16 mm.
3020	=	Piston 30 mm + shaft 20 mm.

Digit 6 : - or /

Digit 7-9 : Length of shock (mm.)

Digit 10-13 : Feature

P	=	Step Spring Preload
T	=	Threaded Spring Preload
H	=	Hydraulic Spring Preload
HI	=	Hydraulic Spring Preload On Hose
H2	=	Pneumatic Preload Adjuster
MI	=	Mechanical Preload
R	=	Rebound Adjustable
C	=	Compression Adjustable
W	=	High-low Speed Compression Adjustable
V	=	VBSC- High-low Speed Compression And Oil Balance Adjustable
L	=	Length Adjustment +5/-5 mm.

Digit 14 : - or /

Digit 15-16 : Spec sheet number

Digit 17 : - or /

Digit 18-19 : Color of Tube / Spring / Reservoir (Optional)

For Digit 18-19

1	CHROME	9	HT.(HARD) / PEARL / BRONZE
2	WHITE	A	SILVER
3	GOLD	P	PINK
4	YELLOW	Z	ZINC
5	RED	T	PLATINUM GRAY
6	BLUE	Q	TURQUOISE
7	ORANGE	G	GRAY
8	BLACK	-	NON - RESERVOIR

Digit 20 : Additional

AB = Shock Absorber with bearing and 30 click compression
B = Black Edition Shock Absorber
(Completely Black Shock Absorber)
F = Off-Road Shock Absorber
I = Idol Shock absorber (Reservoir 90 degree against
shock absorber body)
O = Shock with off-set fork or eye-let
R = Racing Product
S = Classic Series (Black Sticker instead of red sticker)
V = Barrel Spring

YSS TYPE OF SHOCK ABSORBERS

SEPARATE GAS SHOCK

Separate Gas Shock is a shock split between gas and oil with Bladder Free Piston which is better than Emulsion because it can displace oil in the air and has a better cooling. YSS shock absorber has four forms which contain;

Gas shock absorber is a oil shock absorber which contains high pressure nitrogen gas inside to the cylinder shock to minimize foam or bubbles in the shock oil. It causes the operation of the damper asymptomatic stumble. This makes shock absorber works smoothly. Gas shock absorber can be divided into 2 groups.

RESERVOIR PIGGYBACK GAS SHOCK

Is a Sub Tank Gas shock absorbers attached to the top. It has oil holes run through Sub Tank Gas connects to gas pressure which can adjust the Rebound and Compression.

BOTTOM EXTERNAL RESERVOIR

Is a Sub Tank Gas shock absorber which attached to the bottom. It has oil holes run through Sub Tank Gas connects to gas pressure. Rebound and Compression are adjustable.

RESERVOIR ON HOSE GAS SHOCK

Is a welding gas shock absorbers. It has Sub Tank Gas with a hose to solve the problem in some models that do not have enough space. Gas Transmission can be installed on the spot, not a hindrance to shock when moving. Rebound and Compression are adjustable.

DIVIDED PISTON

It has a free piston, the function to separate oil and gas.

EMULSION GAS SHOCK

Emulsion gas shock absorber is a mix of oil and gas shock absorber by compressing nitrogen gas to mix with the oil and added pressure to make the shock absorber work more flexible which responds to the riders better.

EMULSION GAS SHOCK

Works as an upside down, and adjust Rebound only.

TRIPLE PISTON

Is a pull shock absorber. It has special working systems which receive the impact by stretching. The internal mechanism ATPD exclusively from YSS have three sets of pistons working together.

TRIPLE PISTON

Is a pull shock absorber. It has special working systems, which receive the impact by stretching. The internal mechanism ATPD exclusively from YSS have three sets of pistons working together.

GAS DTG

Gas DTG shock absorber has piston cylinder double layers running inside of the cylinder. It has reserved oil and gas outside cylinder which has a durability and smoothness.

DTG SERIES

Double tube gas shock absorber with comfortable and valued.

SHOCK ABSORBER

Oil shock absorber works by using oil alone with strength and affordable price. It can be categorized in two groups;

DOUBLE TUBE (D)

Oil shock absorber cylinder petrol Double Tube. The advantages are durable and smooth because the two layers valve work together. If anything hit the tube, the shock absorber is still working because the piston in the cylinder will not be damaged.

SINGLE TUBE (S)

Oil shock absorber cylinder single tube is commonly used shock absorber. The general advantages are lighter, inexpensive, and better heat dissipation. Upside down installation only.

CARTRIDGE KIT CODE

High Speed Compression Adjustment

For the YSS Racing Shock Absorber, we use the highest quality materials to guarantee the best performance. This shock has a special high flow High-Low Speed Compression to adjust the compression on all weather conditions. With the Rebound Adjuster you have 30 clicks where you can fine tune the stability of the bike.

The Racing Shock contains a special Thermo Needle that guarantee a stable damping under high temperature during the race. This shock has also a very light air Spring Preload Adjuster to adjust the Spring Preload on a quick way to find the perfect balance on the bike. The special aluminum racing piston and the lightweight aluminum tube give a very Smooth & Stable Traction under all conditions.

The YSS Up-Side Down Gas Front Fork has a modern look with the latest technology inside. This is a gas filled Front Fork with a High-Low Speed Compression Adjuster with two knobs and 30 clicks adjustment on every knob, to fine tune the Compression for every track and weather conditions. It also has a 30 clicks Rebound Adjuster with a big range of adjustment to find the best setting for every race condition on fast and slow corners. To find the optimal balance in your bike, this Front Fork has a Spring Preload Adjuster where you can adjust the Spring Preload with 15 mm. The external reservoir contains nitrogen on a floating piston that separates the oil from the Closed Cartridge System that guarantee an excellent grip and a smooth traction on every race track. All forks come with DLC coated inner tubes for less friction and smoother traction at all time, and together with the long life seals we guarantee the best performance.

- DLC coated inner tubes for long life and less friction
- B.I.L. (Bush in line) technology for less friction and overall ultimate stability movement of the fork tubes
- Universal brake system for conventional or radial brake system
- Universal axle system for different size of axles

FRONT FORK

CLOSE CARTRIDGE

FOR RACING

The YSS Cartridge is a Close Cartridge system where the oil is separated from the nitrogen, this gives a much better damping control and feedback for the user. The special aluminum piston the high flow Compression and Rebound Adjuster guarantee an excellent grip under all conditions. The Spring Preload Adjuster provides the possibility to find the perfect balance on the bike for better handling and more balanced cornering.

FRONT FORK
